

Ecology Club Meeting Minutes: 10/27/2011 – 11/3/2011

Students (seven members in attendance) held a special meeting on Thursday 10/27 in order to finish work in the computer lab on the sign project. All signs were finished, printed, and assigned a room number.

Signs were then cut to size. The signs were laminated by Mr. Andrusyk in the media center.

Meeting on Tuesday 11/1 was cancelled when only one member showed up to collect paper recycling and hang awareness signs in classrooms. **Note: Two of our more active members were absent from school, and two others with regular attendance had practice for the NHS induction ceremony.

Two students volunteered to hang the awareness signs after school on Thursday 11/3. Signs are now in each classroom near the light switches.

Next regular meeting Tuesday November 8, 2011
